CODING DAY CAMP

In partnership with Amazon Career Quest

Free Coding Day Camp for HRS Level 4 and 5 Students

**TUESDAY, JULY 23,
12:45 PM - 2:30 PM**

**HRS LEARNING CENTER
4TH FLOOR**

HRS is partnering with Fair Chance Learning, Amazon, and Seattle Public Schools for a special coding day camp for HRS Level 4 and Level 5 students from the 2023-2024 school year (not current Level 3 students).

The Amazon Career Quest Externship program brings career-connected computer science experiences to underserved and underrepresented high school students across Seattle. Program participants take part in a series of interactive workshops on computer science, product development, and tech careers.

This year, the high school participants will have the opportunity to teach their learned skills to HRS Level 4 and Level 5 students through a special (FREE) coding day camp! Participating HRS students will:

- Gain an introduction to computer science
- Practice real-world coding
- Engage in critical thinking and problem-solving skills
- Build teamwork and collaboration skills
- Build confidence in and expand technology literacy
